We’re delighted to welcome our latest member to the ESMA International Network Community – Düring AG from Switzerland.

Düring AG is a family owned company that was founded in 1951 by Maria Düring-Keller in Switzerland. While she was cleaning, Maria came up with a business idea that would change everything: a product that would remove obstinate limescale deposits from her toilet, bathtub and faucets. This became **“durgol”** – a highly effective descaling agent.

The family business keeps its operations firmly rooted in Switzerland: development, production, administration and logistics are all handled from its base in Zurich. The durgol range covers universal and specialist descalers alongside cleaning products for household appliances, kitchens and bathrooms.

Today, durgol is the undisputed market leader in Switzerland and Austria and available in more than 40 countries.

For more information about Düring AG**,** please contact:

Andreas Hunte, Chief Commercial Officer

Düring AG
Langwiesenstrasse 1
8108 Dallikon
Switzerland
