Donating makes a difference and we all play our part in the battle against this pandemic! As planned, we are accelerating our efforts to address the COVID-19 pandemic through a financial support and further product donations amounting to 320,000€ in total. We have offered a 70,000€ donation to the Ministry of Health to further support the national efforts and cover the increasing needs of the Hellenic Health System. Moreover, a further 250,000€ donation in products is offered by our Lanes and Noxzema brands. The National Organization for Medicines, the Ministry of Health and NGO GIVMED will direct our Lanes products to hospitals and other institutions all over the country respectively. Noxzema personal hygiene products are donated to Doctors of the World and to the Ark of the World embracing their valuable efforts. We contribute to our communities staying true to our commitments!
